Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Amendment, filed 4/13/06, with respect to the rejection(s) of claim(s) 4-7 and 10-14, upon further consideration, a new ground(s) of rejection is made.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 4 and 5 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claims 4 and 5 are directed to embodiment of Fig. 2 and 3, where Fig. 2 and 3 are two different structures. The specification clearly stated that: "Fig 3 illustrates an alternate embodiment of the invention". Therefore, Claims 4 and 5 can not claim the features of Fig. 2 and 3 in combination.

4. Claim 10 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one

Art Unit: 2611

skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The determining step failed to comply with the specification.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 4, 5 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a) Regarding to claim 4, line 11, recitation: "comprises" is unclear and confusing for which feature or element of the claim it refers to. If it directs to the first converter circuit, it's still confusing. Suggestion, delete "comprises".

b) Regarding to claim 5, line 10, recitation: "comprises" is unclear and confusing for what fist converter circuit comprises. In fact, the first converter circuit does not comprise anything. Suggestion, delete "comprises".

c) Regarding to claim 10, on line 7, recitation: "phase offset" is unclear for which step it refers to. Is it refers to the using or the determining step?

Allowable Subject Matter

7. Claims 6, 7, and 11-14 are allowed.

8. The following is an examiner's statement of reasons for allowance:

None of the prior art teaches or suggest voice signal and data signal synchronization system comprising: a phase offset detection circuit detects the phase difference between a PSTN clock and a DSL clock; a phase interpolation circuit adjust the voice signal according to the phase difference; and a multiplexer circuit coupled to multiplex data signal with adjusted voice signal for transmission.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eva Y Zheng whose telephone number is 571-272-3049. The examiner can normally be reached on M-F, 7:30 AM to 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chieh Fan can be reached on 571-272-3042. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
